

Hi Humaniser!™

CHAMPION GUIDE

Helping your team stay clear, connected and moving.
Especially under pressure.

Simple actions. Real impact.

Your role as a Champion

You're not here to manage people.
You're not here to fix everything.

You're here to help work flow better.

You guide how your team:

- Stays clear on what matters
- Stays connected as work moves
- Keeps momentum when pressure builds

This is not extra work.

It's a smarter way to lead through the work already happening.

In practice, this comes down to three things:

**Setting Your
Team Up**

**Running
Team Cycles**

**Leading By
Example**

Set your team up

Make it easy for your team to take part:

- Add or update team members
- Make sure everyone has access
- Keep your team structure clean

You can manage this anytime in
My Team Settings (top right corner)

Teams thrive when kept between 8–12 people.
You can add up to 20 members per team for meaningful connection.

This is not about creating a perfect team structure, it's about creating a space where people can actually connect and contribute

Run the team cycle

Each cycle follows a simple rhythm:

- 1** Choose a pressure point
- 2** Your team votes on what's most felt
- 3** You select a focus area
- 4** You choose 1–2 team rituals

Cycles typically run for 6–8 weeks and you can extend slightly if needed
You can manage this at anytime in Team Focus under Champion Hub

How the system supports you

- Once you start a cycle, the system sends the team poll.
- The poll closes automatically, and Focus Area suggestions are generated for you
- If no ritual is selected the system will choose up to 2 rituals to keep things moving.

Want to reflect on how things are really going?

Head to your **Champion Notes**. You'll see how the cycle is evolving and what progress looks like. It's also your space to capture your own reflections and share them with the team if you'd like.

Lead by example

Your engagement shapes your team's engagement. When you take part, others are more likely to follow.

Show up

- Take part in the team rituals
- Follow your own pathways and micro-actions
- Be visible in the process

This sets the signal that it's safe to take part

Bring it into the work

- Refer to the ritual in meetings and conversations
- Use it in real work, not as a separate activity
- Reinforce it in small ways (messages, check-ins)

This is how it becomes part of how the team works

Look beyond your team

- Lead or take part in cross-team workshops
- Share what your team is trying
- Learn what's working elsewhere

Improving how work feels and performs happens across teams, not in isolation

Use HH! Moments

- Use HH! Moments to start meetings or reset conversations
- Encourage others to use them too

Small prompts can shift the tone

The platform supports the journey. You bring it to life.

Use the support around you

You don't need to figure this out on your own. Everything you need sits in your **Champion Toolkit**, ready when you need it.

Need a quick nudge in the moment?

Use **HH! Moments** to start a meeting, reset a conversation, or shift the tone. They're available to everyone, so encourage your team to use them too.

Want to go deeper on a challenge?

Explore **Ease the Pressure**, where you'll find practical guidance linked to each pressure point your team is working through.

If things are not going as expected...

Head to **When Things Get Tricky...** for support on real situations that come up in everyday work.

Want to stay close to what's happening in your team?

Your **Champion Hub** brings everything together, from team cycles and insights to your Champion Notes, where you can reflect and track progress.

And don't keep it within your team.

Cross-Team Workshops are a key part of the journey. This is where teams come together, share what they're trying, learn what's working, and build feedback loops across the organisation.

Use what helps, when it helps. Start small and build from there.

Top 5 FAQs:

A few things that often come up when getting started.

➤ **What if I don't have time?**
This takes a few minutes each week. The system does most of the work, you just guide it.

➤ **What if my team doesn't engage?**
Start small and keep it visible. Engagement builds when it shows up in real work.

➤ **What if I choose the wrong focus area or ritual?**
There's no perfect choice. The goal is to keep the team moving, not to get it right first time.

➤ **Do I need to prepare anything in advance?**
No. The platform guides you step by step.

➤ **What if I forget or don't take action?**
The system will step in to keep things moving, so momentum is not lost.

Small actions.
Clear focus.
Real conversations.
